EDUCATION

Sankalchand Patel University (SPU)   Visnagar, India
Bachelor of Technology in Computer Engineering   June 2019 – June 2023
- Cumulative GPA: **8.51/10.0**

EXPERIENCE

SOLGURUZ LLP   Ahmedabad, India (remote)
Software Engineer   July 2023 – Present
- Led development of a nurse shift management platform, building dual admin portals with shift listings, location-based availability, request workflows, and approval systems serving 300+ nurses across 20+ facilities.
- Built a hotel management system with dedicated master admin and owner portals, streamlining task management and staff assignment across 20+ hotels and 8+ departments.
- Developed a Dubai-based real estate platform with 1,000+ listings, implementing property registration, seller profiles, browse and filter, appointment scheduling, and pricing views.
- Collaborated with an airline carrier's technical team to build a flight booking platform, delivering landing pages, booking flows, and core UI modules across a joint development effort.
- Engineered frontend for a production AI healthcare platform, implementing real-time conversation recording and OpenAI-powered SOAP note generation for clinical documentation.
- Supervised and mentored a team of 6 members, reviewing code and pull requests, and ensuring smooth integration and code quality across projects.

SOLGURUZ LLP   Ahmedabad, India (remote)
Software Engineer   March 2022 - Nov 2022
- Engineered frontend modules for the admin panel of a leading Gujarati music app, enabling efficient content management and contributing to 100,000+ Play Store downloads.
- Built a full stack diamond inventory management and selling portal handling 1M+ diamond records, streamlining procurement and sales workflows for the lab-grown diamond industry.
- Developed a B2B food delivery platform, delivering end-to-end ordering workflows, vendor listings, and seamless checkout experience for 200+ business clients.
